LAFB – Non-Formulary Requests

- **Special Purchase (5Dec04-4Dec05)**
- 708 approvals (avg. 59/month, ~20/month new approvals)
- **Most Requested Drugs**
- 156 (22%) for Lipitor/other antihyperlipidemics
- 146 (21%) for Viagra/Levitra
- 35 (5%) for proton-pump inhibitors
- 24 (3%) for Celebrex
- 22 (3%) for Zyrtec/Allegra
- 20 (2.8%) for Angiotensin Receptor Blockers (ARBs)
- **19 (2.7%) for Spiriva**
- 422 (60%)

Implementing DoD Formulary Changes – LAFB

■ Philosophy

- Breaking a “commitment” with the patient
- Do as much as possible to ease their pain
- Take full advantage of implementation deadline

■ Honor existing refills through deadline

■ Advertise changes: Audiocare, greaseboards, signs, stuffers (empower pt. w/info to make nec. changes), customized auxiliary labels, newsletters/e-mails to provider staff, ProStaff)

■ Tell them why!

■ Ensure pharmacy staff fully educated/eloquent

■ Call civilian providers on new Rxs as much as possible
